HOW TO USE VECTOR TEXT EFFECT

Created By:

Gusev Aleksandr Sergeevich
Designer

1 The archive contains 1 text effect in AI and EPS format. You'll find two folders: HELP, SOURCE.

HELP

SOURCE

2 The "HELP" folder contains: step-by-step instructions, a set of graphic styles for Adobe Illustrator and information about the font used.

PDF
Instructions.PDF

AI
Graphic_Styles.AI

TXT
Fonts.PDF

3 The "SOURCE" folder contains 1 text effect. Let's open one of the files. You can use a file with the extension .AI or .EPS.

AI
1-text_effect.AI

EPS
1-text_effect.EPS
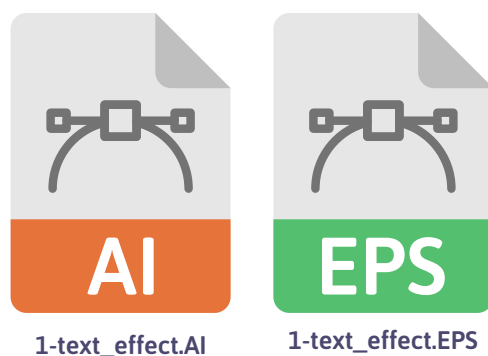

4 This is our vector text effect. You may have purchased other effect. The principle of working with a text effect is the same for all products.

5 Notice that in the .AI and .EPS file the effect have been added to the "Graphic Styles" panel.
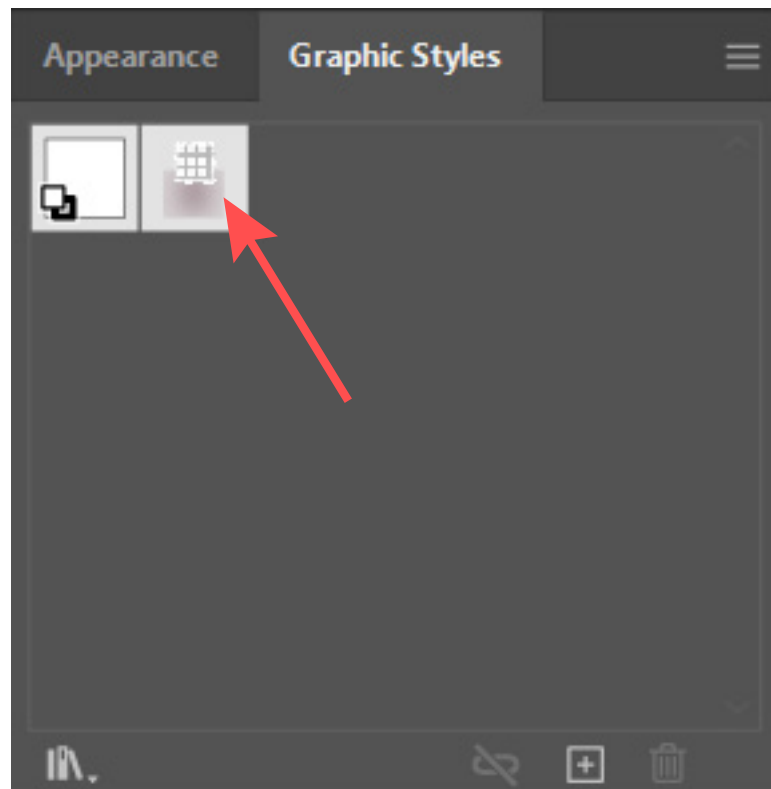

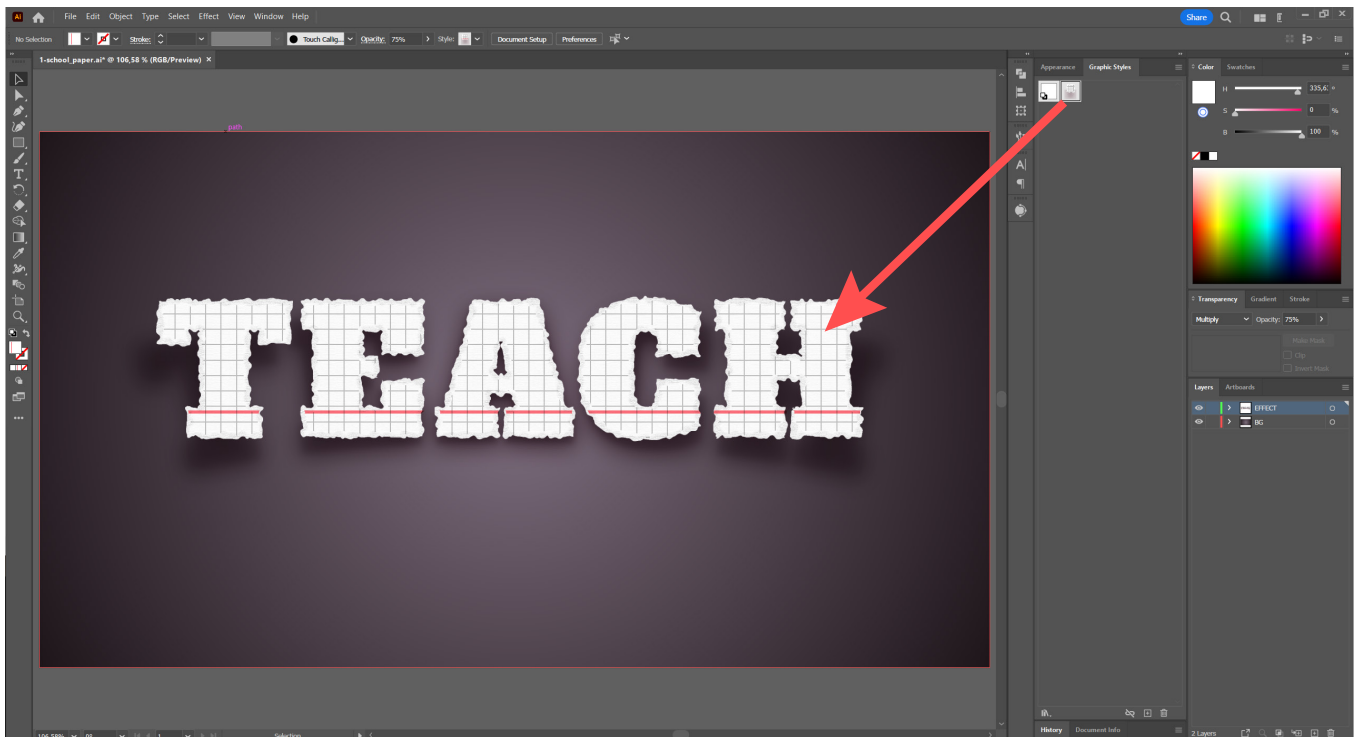

6 Just double click on the text with the effect.

**7** Type your text and the text effect will be applied!

8 There is a second way. Type any text.

**9** Select the text and click on the effect icon in the "Graphic Styles" panel. Great!

10 If there is no effect in "Graphic Styles", you can add one.
Find the "Graphic Styles" panel.
Click on three horizontal lines -> Open Graphic Style Library->Other Library.

11 Find the "Graphic Styles" file in the purchased product.

Fonts.PDF

**12** The selected effects will open in a new window.

Appearance | **Graphic Styles**
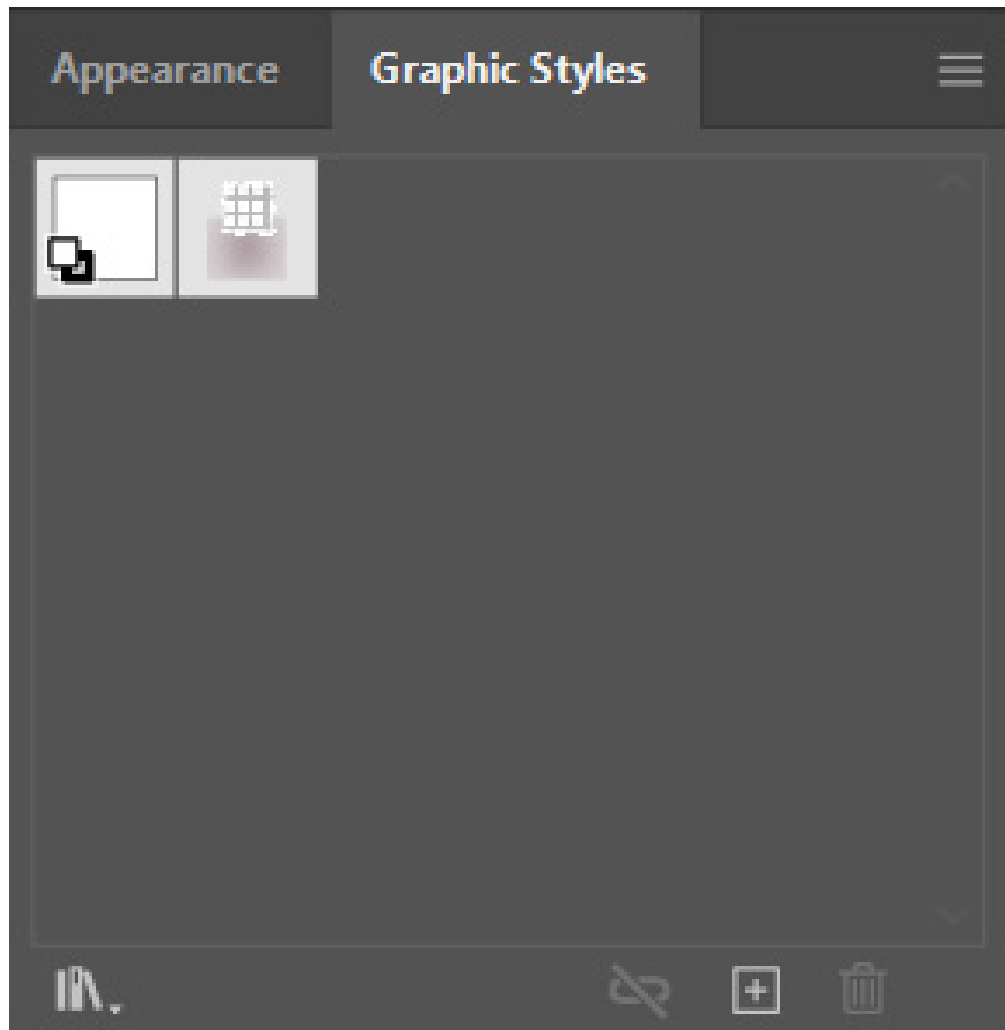

13 Repeat steps 8,9 to apply the effect to any text.

14 Instead of an .AI file, you can use an .EPS file.
